

Please do not do anything to interfere with or dilute Indiana's telemarketing law. It is very important to my family and me. Before passage of the Indiana law, we rarely could have an uninterrupted dinner. We received several unwanted phone solicitations a day, usually during dinner hour. Some of the callers were quite rude. We get far fewer calls now and have much more peace. Indiana's law is effective. We do not want it replaced by one with more loopholes and exceptions.
